Re: Invitation

Dear Prof Li,

I am pleased to invite you to visit our Department of Civil and Environmental Engineering, University of Strathclyde, UK in 25-30 July 2018.

During your visit, we will discuss research collaboration in underground space, together with my colleagues here at the Centre for Ground Engineering and Energy Geosciences and the Centre for Smart Infrastructures, in the University of Strathclyde.

We will also discuss the possibility of co-organising a New Task Group in Urban Geology and Underground Space within the International Union of Geological Sciences (IUGS). We will investigate the utilization of urban underground space in London and visit the Urban Innovation Centre and the Future Cities Catapult.

Should there be any queries or you need any assistance, e.g., visa application, please do not hesitate to contact me.

We look forward to welcoming you at Strathclyde.

Yours sincerely,

Dr Shangtong Yang *BEng MSc PhD PGCert AMICE FHEA*

Lecturer in Structural Engineering

The place of useful learning

The University of Strathclyde is a charitable body, registered in Scotland, number SC015263
